IOWA STATE UNIVERSITY

February 28, 2023

ECI Statewide Indicators

Improving the quality of life for young children and their families in Iowa

- Five desired results
- 20 statewide indicators to determine progress toward achieving the result areas (in 2022)
- Indicators provides invaluable insight into child wellbeing in Iowa, BUT DO NOT always reflect local (county-specific) challenges

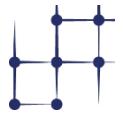

EVALUATING RESULTS THROUGH DATA

ECI uses the Results-Based Accountability™ (RBA) framework for evaluating the results of the initiative. In Iowa law, the ECI Initiative has five desired results for improving the quality of life in Iowa for young children and their families.

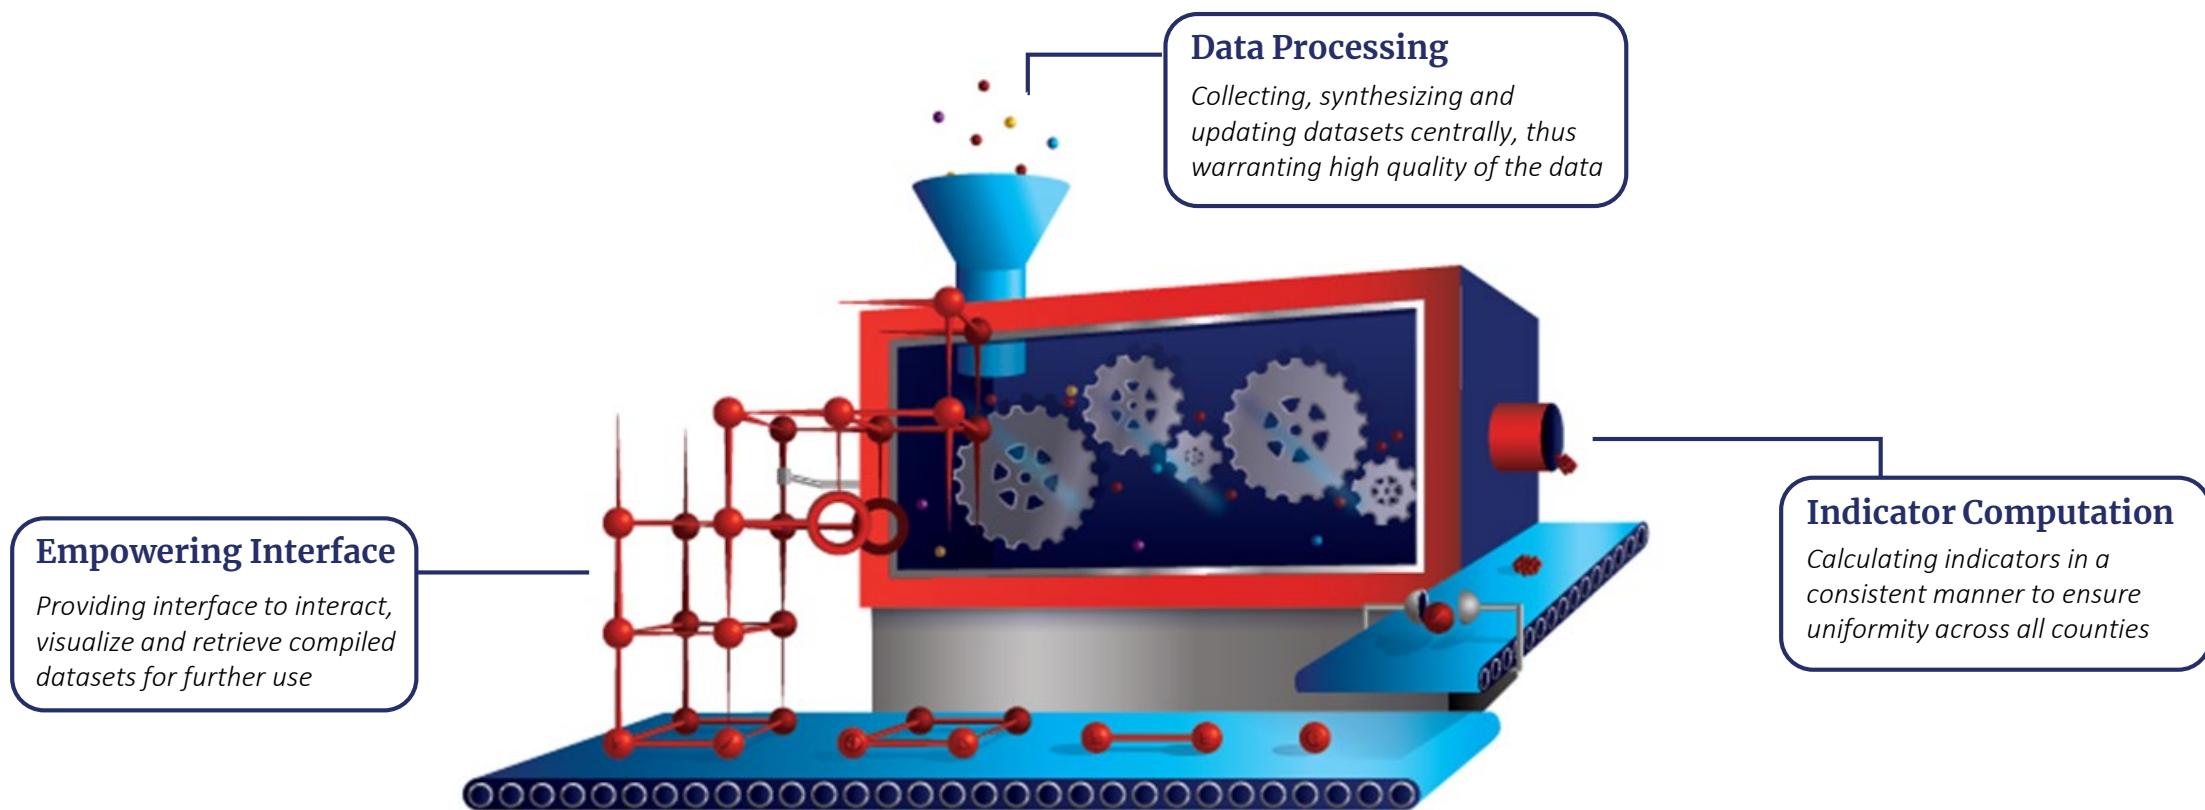

DESIRED RESULTS	STATE-WIDE INDICATORS
 HEALTHY CHILDREN	<ul style="list-style-type: none">• Low Birth Weight• Immunized Children• Dental Services• Infant Mortality• Health and Dental Providers Who Accept Medicaid (data not available)
 CHILDREN READY TO SUCCEED IN SCHOOL	<ul style="list-style-type: none">• Early Literacy Skills• Educational Attainment of Mothers
 SAFE AND SUPPORTIVE COMMUNITIES	<ul style="list-style-type: none">• Children in Poverty• Unemployment Rate• Children with Health Coverage by Income Level• Percent of All People in Poverty• Homelessness Count• Individual Birth Risks• Cumulative Birth Risks
 SECURE AND NURTURING FAMILIES	<ul style="list-style-type: none">• Incidence of Child Abuse• Mothers Under 20• Domestic Violence Rate
 SECURE AND NURTURING EARLY LEARNING ENVIRONMENTS	<ul style="list-style-type: none">• Availability of Child Care• Working Parents• Quality Early Learning Environments

ANNUAL REPORT 2022 INDICATOR SUPPLEMENT | 1 | EARLY CHILDHOOD IOWA

Iowa Data Drive

Data hub that provides all relevant information in well structure and fully documented fashion to **drive local decision-making**

DRIVE CHANGE WITH RELIABLE DATA

I2D2's interactive "IA Data Drive" dashboard is here to empower decision-makers with accessible data in an easy-to-use format. What in the past may have been visits to dozens of different websites is now just a click away – early childhood trends, local vs. state data comparisons, and more. IA Data Drive provides an assortment of indicators aligned with [the most recent statewide annual report from ECI](#).

You need to make decisions quickly, but you want to make them in an informed way. I2D2's unique dashboard will let you do both and drive forward with confidence.

NOTE

Early Childhood Iowa (ECI) indicators were computed for this dashboard using the same data sources specified in the descriptions of the indicators. Notes have been added if an indicator was computed using alternative data source (due to inaccessibility of the original data) or different method. Definitions for ECI indicators were adopted from [ECI Indicators and Data Dictionary 2021](#).

The dashboard might look slightly different depending on the user's environment (screen size and resolution of a device, as well as its orientation). For the best experience it is recommended to interact with the tool using PC or tablet.

Early Childhood Iowa (ECI) Statewide Indicators

The front side of the cards show the most recent statewide values for the available ECI indicators, along with the information about corresponding year and source of the data. The back side provides description of the indicator. Several indicators are normalized using population estimate from American Community Survey (ACS). If ACS data is not available for the year of the numerator than the most recent ACS year is used for computation.
